

ANNEXURE.

Letter No. C. 1043—24-25, dated Bangalore, 23rd—24th July 1925, from C. S. Balasundaram Iyer, Esq., B. A., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

With reference to your letter No. R. 403—R. M. 11-24, dated 20th July 1925 and in continuation of my letter No. C. 1034—25-26, dated 4th July 1925, I have the honour to forward herewith a copy of my Review of the results of the Census of the Agricultural Stock held in the several Districts of the State in March and April 1925 together with the consolidated statement and the District Returns received from the Deputy Commissioners for the information of Government.

Letter No. C. 1043—24-25, dated Bangalore 22nd—24th July 1925, from the Revenue Commissioner in Mysore.

Subject:—

Statement received from the Deputy Commissioners of Districts showing the results of the Census of Agricultural Stock held between March and April 1925.

1. The following statement shows the dates on which the Census was held in each District and the dates on which the District Returns were received in this Office:—

District	Date of Census	Date of receipt of District Returns
Bangalore	21st March 1925	1st April 1925
Kolar	4th April 1925 to 20th April 1925	30th April 1925
Tumkur	5th March 1925 to 11th April 1925	4th May 1925
Mysore	28th March 1925 to 5th April 1925	30th April 1925
Hassan	4th April 1925	3rd July 1925
Shimoga	20th April 1925	16th May 1925
Kadur	16th March 1925 to 25th March 1925	1st June 1925
Chitaldrug	5th April 1925	22nd July 1925

2. The results of the Census for each District are shown in the accompanying statement as compared with the figures of the Cattle Census of 1921. Percentage of increase and decrease under each head of Agricultural Stock both for the Districts and for the whole State is also given in the consolidated statement.

3. From a perusal of the results of the Census for the whole State, it will be seen that there is a marked decrease under all the heads of Agricultural Stock except under Goats, Pigs, New Pattern Ploughs and Carts. The increase under Goats is +459,326, i.e., +35.8% and that under Pigs is +11,012, i.e., +23.1%.

Bulls, Bullocks and Male Buffaloes.—

The percentage of decrease under Bulls is largest (viz—24.9%) and that under Bullocks the least (viz—6.0%) even though more Bullocks (viz—84,863) have disappeared than Bulls (viz—71,162). The fall under Bulls was heaviest in the Mysore District (viz—46.5) and the least in the Shimoga District (viz—10.4%). Thirty-two thousand one hundred and fifty-seven Male Buffaloes have been lost during four years and the loss percent is 28.2 which is heavier than the loss per cent under Bulls (viz—24.9). The deficit under Buffaloes (viz—59.4%) is larger in the Tumkur District than in any other District.

Cows and Cow Buffaloes.—More cows (viz—223,059) have been lost than Cow Buffaloes (viz—94,662) but the percentage of decrease under Buffalo Cows. (viz—17.05) is higher than the percentage of loss under Cows (viz—12.9). Again the decrease in the number of Cows in the Tumkur District is the largest.

Young Stock (Cows and Buffaloes).—More Cow Calves (viz—235,307) have disappeared than Buffalo Calves (viz—89,496) but the percentage of decrease under the latter is heavier (viz—29.6) than that (viz—23.1) under the former. The Tumkur District records the highest percentage of fall both under Cow Calves (viz—41.1%) and also under Buffalo Calves (viz—48.8).

Sheep and Goats.—Sheep have decreased from 2,864, 286 in 1921 to 2,492,021, in 1925 and the percentage of fall is —12.9% and Goats have increased from 1,282, 691 to 1,742,017, i.e., by +35.8.

Horses and Mares.—The fall under horses is more than under Mares, the percentage of decrease being—30.8 and—26.4 respectively.

Ploughs and Carts.—There is a decrease of 26,054 old ploughs and an increase of 1,815 new ploughs resulting in a net decrease of 24,239 ploughs which is —2.8 per cent less than the number in 1921.

On the whole the results of the Census of Agricultural Stock of 1925 are not encouraging. The marked fall under almost all the heads may be attributed to the effects of abnormal seasonal conditions which prevailed in 1923-24 and 1924-25, and the prevalence of cattle epidemics.

Number of live-stock, ploughs and carts in each District in the Mysore State exclusive of the Bangalore Cantonment, as ascertained by a census held in March and April 1925.
